1966 INDEX

Public Health Reports

Volume 81, January–December

and

Public Health Monograph No. 75

THIS INDEX to *Public Health Reports* and Public Health Monographs is divided into a subject index and an author index.

The subject index carries one or more entries for each item published. In addition to the subject headings, categorical headings include ANNOUNCEMENTS (ORGANIZATIONS and PERSONNEL), CONFERENCE REPORTS, EXHIBITS, INVENTION REPORTS, LEGAL NOTES, and TRAINING COURSES.

The Public Health Monograph published concurrently with *Public Health Reports* in 1966 appears under the category heading MONOGRAPHS. The monograph summary appearing in the journal is indexed under the appropriate subject heading.

nonfatal, medically attended injuries among children receiving prepaid medical care *519
non-motor-vehicle, relation to use of alcohol; literature review *585
poisonous snakebites, U.S. incidence *269
prevention activities, PHS *138
traffic, research in prevention as system component *569

ADMINISTRATION
health and planning department efforts in community renewal program, Springfield, Mass *323
PERT and planning for health programs *449
program management officer, a developing management concept (MS) 199

AGED
and chronically ill, small-grants projects for, Massachusetts *471
in public housing, Queensbridge health maintenance service, New York City *75
patients, impact on hospital use and income *488
psychological needs of patients at home, visiting nurse study (CR) 266

AIR POLLUTION
acute eye irritation, outbreak in Buffalo, N.Y., epidemiologic aspects *153
automotive exhaust emissions, Federal standards for 1968 vehicles (SR) 658
control, tax exemption holding on industrial smokestack (LN) 435, 884
economic costs, comparative study in two Upper Ohio River Valley communities *505

ALASKA
DDT residues in (SR) 874
prevalence of enteric infections among Indians *797

ALCOHOLISM
and non-motor-vehicle accidents; literature review *585
factor in motor vehicle accidents *591

AMBLYOPIA
prevalence studies *329

ANEMIA, HEMOLYTIC
detection among Project Head Start children *794
